

Wps office pdf app free download

I'm not robot!

WPS Office Free is a productivity application developed by Kingsoft Office. As the name suggests, it is a free alternative to solve your day-to-day office needs. It includes a word processor, spreadsheet, and presentation creator. WPS Office Free is compatible with Microsoft Office and can work as a cost-effective alternative. It even manages to mimic pretty much the entire look and basic features of the popular office suite. Moreover, it works well with other well-known packages from the same category, such as OpenOffice and LibreOffice. Best of all, it uses less space and resources than the rest of its competition. All the tools you need! WPS Office Free has features that many office suites offer. It can create new documents or edit existing ones. Beyond the typical tools, such as adjusting font style and size, adding slides, and creating formulas, it also has some advanced features to its suites. Among them is the ability to track changes, print using Google Cloud Print, and encrypt files. You can also install extra fonts to add your favorite ones. The app also further advanced its spreadsheet program by adding built-in formulas and supporting charts. Meanwhile, the presentation suite has a presenter mode that plays your slideshows with a laser pointer. You can use this pointer by drawing on the screen. Finally, the Writer App—WPS Office Free's version of Microsoft Word—has a read-only view. Here, you can flip through the pages like a book. Moreover, it comes with a PDF viewer, although you cannot edit your files with it. Like its competitors, the app also provides cloud storage for free. However, you can only save small files as they cannot exceed 1GB. Moreover, despite its exhaustive list of features, WPS Office Free still misses some important things. Unlike Microsoft Office, there are no built-in templates in its suites. Users will have to manually download them from Kingsoft's website and load them in the apps to use them. Additionally, the presentation has no nifty tools like the animation feature. Familiar and fluid controls WPS Office Free offers an interface reminiscent of Microsoft Office's new version. If you ever used one, then using this app will be a breeze. It employs the same ribbon with all the most commonly used tools and options displayed prominently. With this, you won't spend ages looking for the setting menu or the tools you need. As mentioned, the app has a light system requirement, ensuring swift performance. Users must note, however, that WPS Office Free does not work like other free office suites. It does not allow users to utilize all its features. Instead, certain features are timed access. To gain the time to use them, users will have to watch advertisements. It is a small sacrifice that you will need to take to enjoy this superb software suite. Final thoughts All in all, WPS Office Free is a valuable alternative to MS Office. Its suites come with an exhaustive list of handy features. It is also versatile and integrates well with other similar programs. Moreover, it comes with a familiar ribbon interface, allowing you to use it with ease. However, it lacks some features that MS Office offers. Some tools are also only available after watching ads. Nevertheless, it is still an excellent choice. Our office suite contains four major feature modules: Writer, Spreadsheet, Presentation, and PDF. Easily compatible with 47 file types, including doc, xls, ppt and other text types. Fully applicable to Windows, macOS, Android, and iOS. Moreover, popular templates of various types can help you handle challenges easily and stand out among peers in business, education, and home scenarios. Free Download Since the release of WPS Office 2016 and WPS Office 2019, we have been applying new technologies to improve user experience. Components of WPS Office, namely Writer, Spreadsheet, Presentation, and PDF, can provide you with brand-new visual experience and more personalized office experience than previous versions. Want to learn more about the latest features of WPS Office? Find out what's new with the updates. The WPS PDF toolkit includes small but complete apps that help you solve problems in reading, editing, splitting, converting, and signing PDF files. Whether you are a student or a business professional, this toolkit can help you breeze through challenging assignments. WPS Office is the smallest size (less than 35MB) and all-in-one complete free office suite on Android mobile and tablets, integrates all office word processor functions: Word, PDF, Presentation, Spreadsheet, Memo and Docs Scanner in one application, and fully compatible with Microsoft Word, Excel, PowerPoint, Google Doc and Adobe PDF format. The aim of WPS Office is to provide you one-stop working solution since 1989. Various of office tools and unique and intuitive UI design ensures you enjoy the best mobile office experience. You could easy to do all office word processing on-the-go on phone, tablet and other portable devices. WPS Office allows you can create, view, edit and share office word documents and homework as handy as you need while out of office, in class, traveling, before bedtime or whenever and wherever you want. All-in-one Free Office Suite App Integrate with Memo, Document, Spreadsheet and Presentation, lets you make quick office documents editing, creating and reading on-the-go Fully compatibility with Microsoft Office(Word, PowerPoint, Excel and Txt), Google Docs, Sheets, Slide and PDF, Adobe PDF Free PDF Converter and PDF Reader Support PDF files reading and viewing Convert all office documents (word, text, excel, powerpoint, doc) to PDF files Connect to Cloud Drive Easily access and edit office documents directly from Dropbox, Google Drive, Box, Evernote and OneDrive Automatically save office documents to the clouds Documents Encryption Support documents encryption, keep your office documents safe Easy to Share Documents Easy to share office documents via WIFI, NFC, DLNA, Email, Instant Messaging, Whatsapp, Telegram, Facebook and Twitter Make Presentations on-the-go Support Miracast, you can start projecting on any wireless display supports Miracast now Make presentations using WIFI, NFC or DLNA Documents Wireless Printing Support all office documents wireless printing including PDF printing Low Devices Hardware Requirements Run smoothly on nearly all types of Android phones and tablets Power Saving The unique software coding promises never lagging the operation of your mobile operating system.
